Face wash sponge made entirely of konjac

Konjac Sponge KOMACHI White K-01

Konjac Sponge KOMACHI Charcoal K-02

Konjac Sponge KOMACHI Green Tea K-03

Konjac Sponge KOMACHI Cherry Blossom K-04

Removes impurities and is gentle on your skin

Becomes a fluffy sponge when placed in hot water.

Made of 100% plant-based materials, so you can use it with peace of mind.

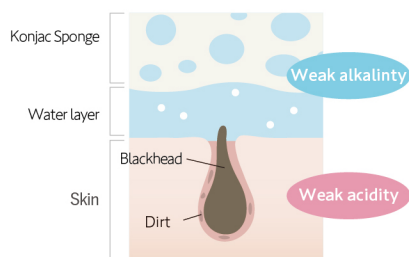

The surface of the sponge when full of water is covered in a membrane of slightly-alkaline water. This neutralizes, breaks down and washes away slightly acidic dirt and other impurities in pores to keep your skin healthy.

An environment friendly product that is completely without petroleum-derived materials, including the package.

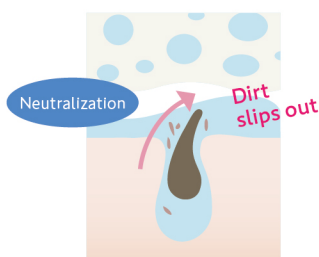

"KOMACHI" means "beautiful lady" in Japanese.

We would like to help make your skin beautiful with something familiar to the Japanese from the ancient times, "konjac."

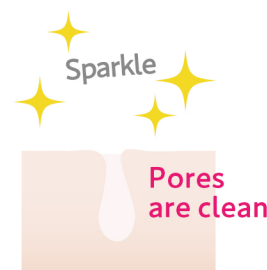

..... Konjac Sponge Effects

①With the water based membrane, thick layer of moisture coating will protect your skin from damage. It is ideal for people with sensitive skin.

②Because of the cleansing effect with weak alkaline solution, it will remove dirt from pores without soap and improve your skin condition.

③It will help to promote healthy and beautiful skin with the power (nutrient) of Japanese plant that is natural and safe to use.

..... HOW TO USE

1

Soak in hot water, and gently squeeze to soften. Please wait until the sponge has expanded sufficiently before using.

×Please do not use it in dry and hard condition.

2

Lathering up the soap, etc. and then wash your face gently. This product can be used with or without soap.

×Please do not scrub vigorously.

3

After use, rinse sponge with water until soap and dirt have been thoroughly washed out, and press the sponge between your palms to remove excess water.

×Please do not remove water in a wringing motion, as the konjac fibers are delicate.

4

Please place the sponge in a sealable container and store it in the refrigerator.

×Please do not leave it in the bathroom.
